Press Release

Wireless Interactive Appoints GDI Communications LLC a Master Distributor

Laguna Hills, California November 22, 2013: Wireless Interactive announced today that GDI Communications LLC has been appointed a Master Distributor of the Wireless Interactive wireless IP products. Wireless Interactive products include wireless IP products operating in the 450 MHz, 900 MHz, 2.4 GHz and 5 GHz frequency bands. Company officials expect this appointment to expand the availability of our products in additional market segments and free up resources to expand the wireless system engineering component of the business.

For over 30 years, GDI Communications LLC has been a leading manufacturer and supplier of copper, fiber and wireless communications products utilized in the Traffic and Transportation industry. GDI Communications LLC has utilized Wireless Interactive products and has found them to be highly reliable. This appointment allows GDI Communications to widen its customer base and offer their products to customers outside of their core marketplace.
